

Graphing Worksheet Answer Key

Draw Something

Graph each relation. Determine if it is a function.

1. $\{(2, 4), (1, 5), (3, 6)\}$

This is a function.

3. $\{(1, 4), (2, 5), (3, 6), (4, 7)\}$

This is a function.

2. $\{(0, -1), (0, -2), (0, -3)\}$

This is not a function.

4. $y = 2x$

This is a function.

5. $x + y = 4$

This is a function.

8. $y = -4x$

This is a function.

6. $y^2 = x$

This is a function.

9. $y = x$

This is a function.

7. $x = 3$

This is not a function.

10. $|x| = |2y|$

This is not a function.
